

Project Title: Silhouettes

Artist: Seme Jatib

Artistic Statement

I am a contemporary dancer, choreographer and media artist that has been working professionally for more than 10 years. My work has developed in close collaboration with other artistic disciplines, such as film, media arts, music and architecture, allowing me a new approach to movement expression and the art of choreographing. I work both alternative and traditional performance space because I feel the need to connect with the audience not only in a traditional public performing space, but also in the privacy of their own home using the Internet or alternative urban spaces.
